### "MEN WANTED" SIGNS APPEAR IN CHICAGO

CHICAGO, May 31.—Signs of the times are seen here in the changing of the cry for "jobs" to the outbreak of signs for "men."  
Requests to the Illinois State Free Employment offices jumped from 5,568 in March to 6,669 for the first twenty-five days in May.  
"Within thirty days I feel sure that any man who will work will be able to get a job," Charles J. Boyd, secretary of the employment service declared.  
Huge increases in building activities presage even larger demands for men this summer, Boyd stated. Needs of labor from basic industries is also on the upturn.

## BARREN OYSTER BEDS IN MD. TO BE FERTILIZED

State Deposits 50,000 Bushels of Shells in Tangier Sound.

CRISFIELD, Md., May 31.—In its effort to make productive again the oyster bottoms in various sections of Chesapeake bay, which are now lying barren of oysters, the State conservation commission has started its work of planting, and the work is well under way in Tangier sound, just at the mouth of the Little Annapolis river, a few miles from Crisfield. The planting is in charge of Sweeney Earle, who states that it is the Commission's plan to plant 50,000 bushels of shells on "Turtle Egg" rock on the westerly side of the sound opposite Deal's island.

This ground, it is said, is exceptionally fine, both for collecting spat and growing oysters.

3,000 Bushels Planted.  
An experimental planting of about 3,000 bushels will be made in Pocomoke sound, off the mouth of Appo Hole creek. If this proves successful it is likely this section will be planted in the Pocomoke next year.

Examination of "Harris Rock," in Tangier sound, discloses that the shells planted last year by the commission are in fine condition and perfectly clean, and while it is said the shells did not get a good catch of spat last year it is likely they will get a set this summer.

The commission has selected a section on Hog island, off the south of the Patuxent river, for 50,000 bushels, and James Point and the Diamond Rock, off Dorchester and Talbot counties, for 80,000 bushels.

Plants Promising.  
Reports recently received show that shells planted off St. Mary's county in the bay last year have an excellent catch of young oysters, and many of these, it is said, will be of marketable size by next fall.

When in Crisfield recently, commenting on the oyster bottoms in Tangier sound, Engineer Earle said: "The bottoms now being shelled are considered the best in the upper sound, although at present they are depleted of shell clutch." He further stated that "a small area of bottom will be shelled in Pocomoke sound."

STATLER BUYS \$2,500,000 HOTEL IN BUFFALO, N. Y.

BUFFALO, N. Y., May 31.—The Iroquois, one of Buffalo's most widely known hotels, has been acquired through purchase by E. M. Statler, it was announced today. The latter will continue operation of the hotel for the present. The consideration is said to have been \$2,500,000.

TEN INJURED AS RACING CARS CRASH INTO CROWD

BUFFALO, May 31.—Ten persons were injured yesterday, one probably fatally, in automobile races at Columbia Park. Racing cars crashed from the course into spectators. The injured were taken to hospitals.

## UNION OF CHINA HOPE FOR BY PRESIDENT HSU

Declares He Will Not Resign, But Will Continue to Work For Peace.

By EDNA LEE BOOKER.  
(Copyright, 1922, by International News Service.)

PEKING, May 31.—"If out of the present war union results, the price paid will not be too great."

"I have done all that I could to prevent civil war in China. I have tried for months to bring about a reconciliation between the rival factions and my efforts have been in vain."

His excellency Hsu Shih-Chang, president of China, made these declarations to the International News Service today.

"I will not resign my office, no matter what pressure is put upon me," he said, "nor flee in the face of danger, for if I desert Peking will be thrown into chaos. I am doing everything possible to maintain order within the walls and making protection of foreign life and property my first duty."

"For a number of years the republic has been divided into two rival camps, and we stand before the world as a nation torn by internal strife. This can no longer be suffered to continue. The north and south are inseparable parts of the republic. If strife continues, it will affect not only ourselves, but other nations as well."

"National unity is the first object we must strive to maintain. If my resignation would bring this about I would resign today, but it would not."

DUNCAN SISTERS FACE TROUBLE OVER SERVANT

LONDON, May 31.—The Duncan sisters, famous American stars, ran afoul of the aliens officials at Southampton yesterday on account of Teresa Gunther, their German maid.

The girls were held up by the officials for nearly two hours, the maid being refused permission to enter England on account of alleged passport discrepancies.

The matter was finally settled temporarily when the sisters assured the officials that they were only here for a visit. The officials demanded the attendance of the Gunther girl at the alien inspector's office, in London, today for further investigation.

The Duncans will open on June 12 under the management of C. B. Cochran in a new revue.

SLAPPING OF STUDENT IS OKED BY JUDGE

BRIDGEPORT, Ill., May 31.—School teachers are sometimes justified in slapping their pupils and may even go to the extent of pulling their hair. Brought into court on a charge of assault and with pulling a handful of hair from a pupil's head, Miss Mabel Speer, a local teacher, was discharged by the judge.

One witness swore that he believed the complaining pupil had not taken a bath for two years.
